CIRIAJASA EC

ONE DECADE, MORE TO DEDICATE

At the beginning establishment of the Ciriajasa E.C., we were focusing on the areas of drinking water and sanitation consultancy services. Drinking water is one of the basic necessities and very necessary in improving the quality of human life, while sanitation was the health needs and environmental feasibility of the settlement from the influence of “trash, waste water and drainage”. Both of these factors are highly influential and have an impact on the economic growth of the community.

Over the course of time and client request, Ciriajasa E.C. currently also provides consultancy services for Energy and Mining, Spatial and Settlements, Urban Infrastructure and Buildings, roads and bridges, Water Resources, Community Empowerment, Education and Training.

Ciriajasa E.C. commitment is continuous quality improvement service to clients. Since the year 2015 every service process performed by Ciriajasa E.C, has officially put in place quality management systems ISO 9001:2008 which has been upgraded to the quality management system ISO 9001-2015, and the management of health and safety, OHSAS 18001:2007.

Ciriajasa E.C., as a consultant who has long worked, has won the trust of local and national government and private parties to handle a variety of complex projects and large scale in almost all provinces in Indonesia, both projects sourced from Indonesia Government, private parties, as well as projects financed by foreign aid funds such as the World Bank, the Asian Development Bank, Islamic Development Bank, and OECF.

As a result of quality services, effective and efficient, making Ciriajasa E.C. became one of the major consulting company in Indonesia.
